

AMBERLINE

WINDOWS FROM THE NORTH

THE HIGHEST QUALITY FOR YOUR SATISFACTION

PVC AND ALUMINUM

- > Windows
-) Doors
- > Balcony doors
- Facades
- > Winter gardens

WHY A M B E R L I N E ?

BECAUSE

- » Your safety is our priority E.g.
 - Burglar-proof handle, Additional detents, closed shape steel in every window
 - > Innovating and award-winning solutions in safety

Functionality and advanced technology is being researched by our company

We were the first one to introduce energyefficient PVC and aluminum windows with air-exchange around the sash

Our long time experience and advanced technologies let us create unusual and original solutions

- » Focusing on details and solidity make us a valuable company for our clients
 - Only class A PVC profiles:
 - > Components come from renowned suppliers
 - > All products are certified by international institutions

AMBERCLASSIC

AMBERCLASSIC 70

Standard PVC window with classic design and good thermal parameter

AMBERCLASSIC 76

Durable PVC window with excellent thermal parameters

AMBERCLASSIC 82

High-end PVC window for energy-efficient and passive construction

CLASS A ONLY PROFILES FROM

- World-renowned brand
- Certified profiles
- > Excellent statics

- Profile's outer wall thickness equals 3 mm (This parameter meets the highest RAL standards in Class A)
- Lifelong durability
- Lifelong resistance to poor weather conditions (wind, rain, snow)
- > Easy to maintain
- Elegant look for many years to come
- Durable, closed shape steel in the whole window frame
- Environmental friendly

AMBERCLASSIC 70

- Class A profiles
- > 5- chambers
- 70 mm installation depth

AMBERCLASSIC 76

- Class A profiles
- > 6-chambers
- 76 mm installation depth

AMBERCLASSIC 82

- Class A profiles
- > 7-chambers
- 82 mm installation depth

AMBERTERM

New generation of energy – efficiency. Heat locked inside the house

AMBERCLASSIC 82 MD

Triple gasket window (Outer, middle, inner) for even better thermal and acoustic performance

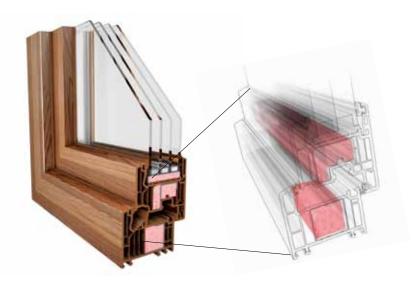

PERFECT CONSTRUCTION

- > Phenomenal heat infiltration factor for a whole window: $U \le 0.7 \text{ W/m}^2\text{K}^*$
- 82 mm installation depth which guarantees the highest level of energy-efficiency for passive and energy-saving housing
- Triple and double glazed windows with window pane thickness from 24 mm to 52 mm
- Introduces many possibilities for custom glazed sashes and frames
- > Profile's outer wall thickness equals 3 mm
- Multi-chambered profile's geometry:7-chambers in window's profile6-chamber in sash's profile
- * for window panes Ug =0,4 W/m 2 K and ψ g=0,035 W/m 2 K
- Triple gasket system with a middle gasket available in 3 color schemes, ensures thermal and acoustic insulation leaving the hardware chamber dry.

AMBERPASSIVE

Energy-efficiency at a highest level

PASSIVE WINDOW

For our most demanding users

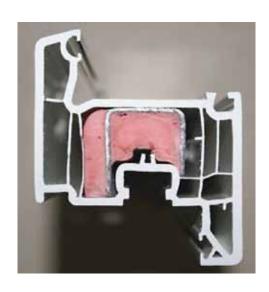

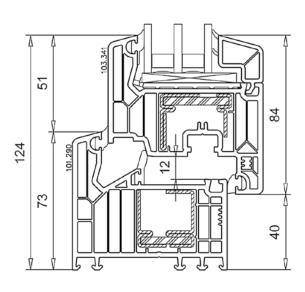

Based on energy-efficient profile Softile82 MD strengthened with our special thermal steel with triple gasket technology and thicker windowpane we created a window, which meets the requirements needed to build passive houses.

Deeper windowpane embedment gives excellent sealing features (from cold, humidity, wind) together with acoustic and thermal insulation.

Universal construction of this unit makes it compatible with window door, entrance and slide doors as well as with other accessories like: windowsills and blinds.

AMBERSLIDE

Large dimension and energy-saving lift and slide terrace

windows (HST type).

Ideal for living rooms with panoramic views.

NO BORDERS BETWEEN INTERIORS AND SURROUNDING

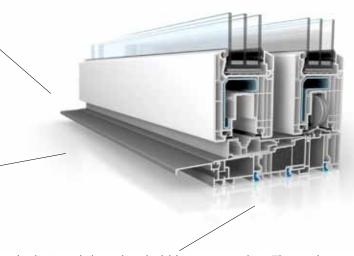

- Amberclassic 82 profile- in class A
- Unit dedicated for large glazed areas (even up to 6,5 m wide and 2,7 m high)
- Outstanding insulating parameters
- Innovating low-threshold design with excellent thermal insulation features, achieved by implementing duo thermal barrier and integrated insulating wedge
- Comfortable passage because of low-threshold design (50 mm)
- > Easy to use
- Wide range of construction solutions

Attachable drip cap creates a support for lowered shutter and eases future construction and renovating works on terrace or balcony.

Threshold's flat design and its integrated ending make the unit barrier free.

Newly designed door threshold has outstanding Thermal insulating features achieved by i.a. Implementing duo thermal compartment and Integrated insulating wedge

AMBERSPACE

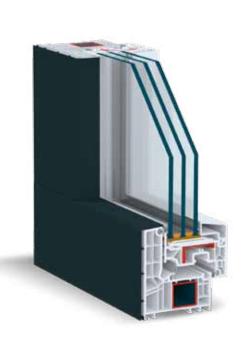

PVC window designed for those who value minimalism and purism in architecture

- Class A thermal performance
 Amberclassic 82 in Artline option
- > Class A
- > 7-chamber window frame
- > 82 mm mounting depth

MINIMAL CONTRUCTION! MAXIMAL SPACE!

- > Puristic, sophisticated design
- > Exclusive look
- > Frameless glazing
- Sash's frame hidden behind casing sash
- Casing's frame hidden in building's insulation
- > Possibility of using large glazing
- Possibility of implementing unusual shapes and designs, like arches
- Option of use internal or external muntin
- > Class A energy-efficient profile

Wide range of color schemes thanks to aluminum veneer.

AMBERFOLD

Fold and slide aluminum door, folds like a harmonica.
Perfect solution recommended for large passages.
Low-threshold and lack of built-in sashes makes it a barrier-free unit.

FOLD AND SLIDE DOORS

HS – harmonica type doors are ideal for areas where large passages are required, it also creates an optic illusion of bigger space.

This type of unit is widely recommended residences with large terraces, loggias and swimming pools.

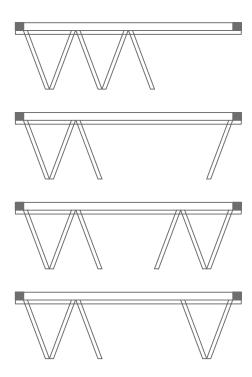

Clever connection of internal and external space created by folding all sashes on one or two sides in chosen configuration.

ADVANTAGES

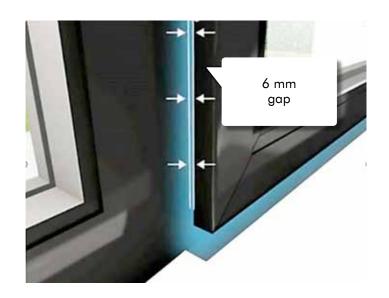

- Lack of vertical mullions
- › And built-in sashes in open version
- > Possibility of low-threshold options
- A large selection of opening and connecting
- Configurations of the sashes

Examples of openings:

AMBERSAFE PVC ALU

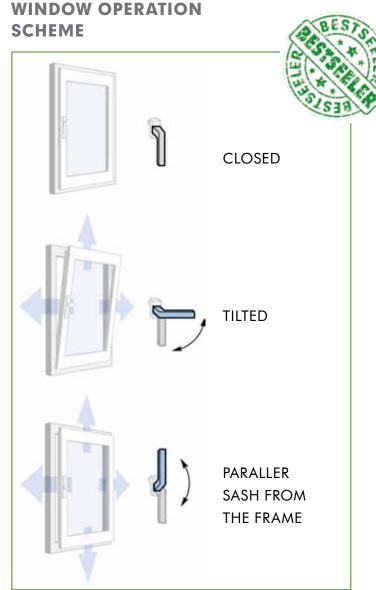

Window that is opened and closed at the same time.

PVC window with innovating function of air exchange all around the sash, through.

Natural and energy-efficient ventilation recommended for areas with high humidity, like bathroom, bedroom and kitchen.

ADVANTAGES

HEALTH. Natural air exchange, regardless of the weather conditions.

SAFETY. Anti-burglar system, while window is in ventilation position.

SAVINGS. No necessary energy loss

COMFORT. No drafts

CONVENIENCE. Fresh air at home in any weather, even during rain and snow.

ANTI MOSQUITO. Small air gap (6 mm) prevents insects from getting into the house. It's a great alternative for a window screen.

AMBERSMART

STAY IN TOUCH WITH THE HOUSE

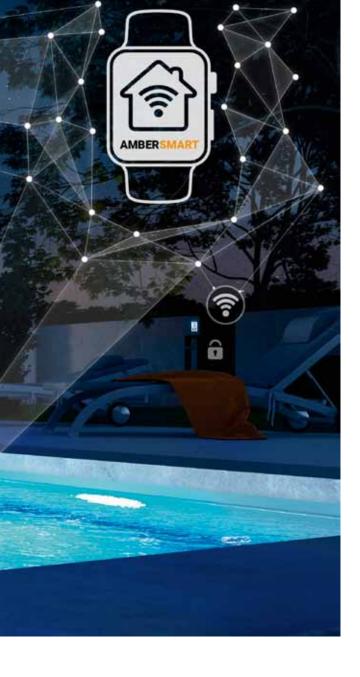

Advanced technological solutions and multifunctional window, which can be monitored and controlled from any place in the world through any mobile device with Internet connection.

INTELIGENT WINDOW

Range of control and programming functions:

- Closing and opening of windows/ balcony doors/ blinds
- Protection from unauthorized intrusion, in connection with at home sensor
- Creating function for automation of selected functions e.g. closing the window in case of rain or snowfall
- Luxury option, window pane transparency control

Wireless radio hook, battery-powered

Self-sustaining radio hook, due to integrated solar cells

AMBERELEGANCE

SPECTRAL

Noble and ultra mat profile's structure is ideal for connoisseurs of aesthetics

SELECT

Hidden, invisible hardware

COLOR INSIDE

Inner part color same as profile's color

HALF FLASHED PROFILE

Gently rounded shapes

More light in a room

TIMELESS ELEGANCE

SELECT

System of a hidden hardware is an ideal solution for sophisticated architecture admirers and individualists.

Hingeless effect-was created by hiding the hinges in the small space between a sash and a frame.

HALF FLASHED PROFILE

Lowers the height of a whole unit, which helps which allows more light to enter the room and gives it a unique, rounded shape design.

COLORFUL INSIDE

In selected color options the core of the profile can be colored, due to this the whole profile can have the same color on the outside as well as on the inside.

In addition, window is protected from freezing due to placing the hardware in a dry chamber.

SPECTRAL

Is available in wide range of colors: dark grey(anthracite) ultra mat, platinum gray ultra mat, umbra ultra mat, graphite black ultra mat and white also in ultra mat.

Spectral is available on Sotfline 82 and Softline 76 system single or double coated.

AMBERGLASS

OPEN UP TO A BIGGER SPACE

Exclusive, all-glass constructions with an exquisite and elegant hardware.

dormakaba 🚧

UNIQUE EFFECT OF CLEAR CONSTRUCTION WITHOUT VISIBLE MOUNTING

Frameless units based on special glazing and hardware.

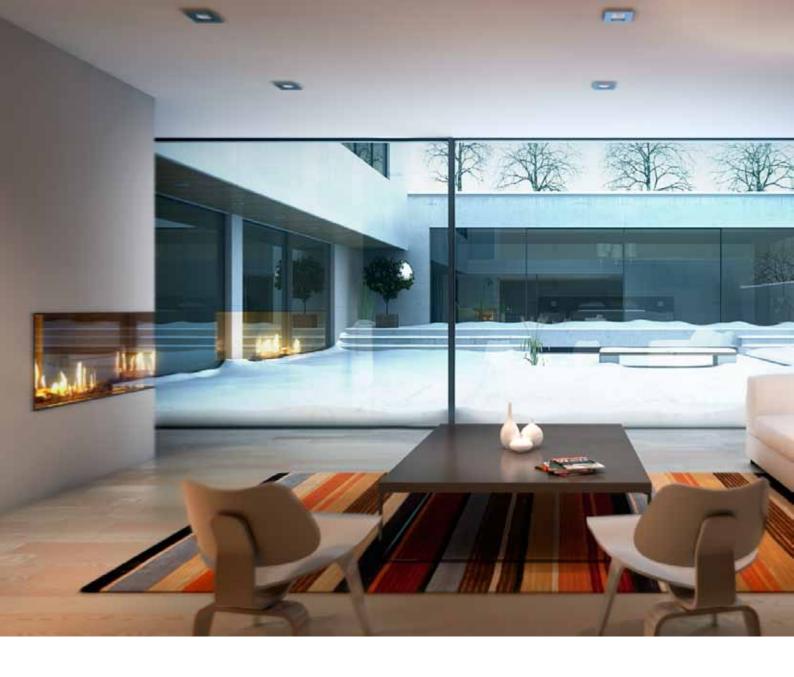

Sophisticated hardware design

Safe and functional allglass swing door with innovating solution- axis of rotation placed as close as possible to door's edge.

Risk of finger trapping reduced to minimum.

CHILDREN FRIENDLY DOORS

AMBERVIEW

VIEW WITHOUT LIMITS

Aluminum slide terrace doors created for minimalism and open space admirers

ARCHUTECTURE OPEN TO NATURE

- Minimalistic design
- > Reduced width of a frame
- Noble look
- Large glazing
- > Possibility of automatic control
- Option of using highquality transparent glass with upgraded optics
- Option of applying special sun blocking glass

AMBERFIRE

Fireproof aluminum windows and doors with fire resistance in class:

- > EI15*
- > EI30
- > EI60
- > EI120
- * E = fire integrity
 I = thermal insulation
 in minutes

- Indoor and outdoor fixed dividers and doors in El 15 and El30 class
- > Sliding doors in El30 class
- Walls without muntins in El30 and El60 class
- Post and beam facade systems in El15 and El60 class
- Inner compartments with fire resistance in El120 class
- > Glazed roofs in REI20/RE30

All of the products are compatible with each other

Translucent, fire resistant, frameless partition walls- characterized by high translucency

AMBERGARDENS

IN HARMONY WITH NATURE

Winter gardens based on specially designed aluminum profile and suitable glazing dedicated to enthusiasts od summer and its microclimate.

WINTER GARDEN

- Ensures maintaining a proper temperature and healthy air-circulation all year round
- Can be used as living area, office space, all year garden or house porch for relaxation
- Guarantees pleasant insolation on colder and cloudy days, thermal insulation and ventilation, despite of the weather conditions

BE INSIDE AND OUTSIDE AT THE SAME TIME

The effect of connecting the inside of the house with the outside ,is created by installing terrace doors in winter garden's construction.

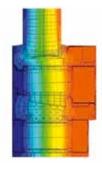

AMBERPASSIVE

Modern, passive aluminum window used in buildings with high thermal and insulation demands

New aluminium **Ferroline** window imitates steel joinery and is perfectly suitable for renovation of historic buildings.

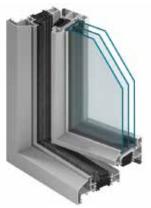

MOST POPULAR ALUMINUM SYSTEMS

NOVELTY

◆ SecuForte® a completely new standard of burglary resistance. Handle with built-in safety system, without possibility of breaking in from the outside

▲ Handle blocking function when handle is in wrong position

▲ Two bolting hooks in every sash RU and PVC

▲ Warm, distance frame for better window's thermal insulation

▲ Octagonal, so called blocking mushroom. Tighter window press. Greater protection against smashing the window down

▲ Teflon sleeve on upper and lower sliding bearing hinge for noise and wearing down reduction

▲ 3 point locking system in every door

◄ System steel with screws in windows' profiles for better static and anticorrosive properties. Each profile has screwed in thick, system steel completely closed in the frame

Mit diesem Zertifikat wird bescheinigt, dass die benannten Fenster den Anforderungen des Ift-Zertifizierungsprogramms für Fenster und Außentüren (QM 320 : 2013) entsprechen.

Grundlagen sind durch das Prüfiabor erstellte Produktfamilien der aufgeführten Fenster, Prüfung durch das Prüffabor nach EN 14351-1 : 2006 + A1 : 2010, eine werkseigene Produktionskontrolle des Herstellers, eine Fremdüberwachung der Fertigung durch die Überwachungsstelle in den benannten Standorten und eine jährliche Stichprobenprüfung von im Werk entnommenen Proben.

Die Gültigkeitsdauer des Zertifikates beträgt 3 Jahre. Mit der Erteilung des Zertifikates ist eine regelmäßige Fremdüberwachung des Herstellers verbunden.

Das Zertifikat darf nur unverändert vervielfältigt werden. Alle Änderungen der Voraussetzungen für die Zertifizierung sind dem ift-Q-Zert mit den erforderlichen Nachweisen unverzüglich schriftlich anzuzei-

Das Unternehmen ist berechtigt, die Beschläge gemäß der Ift-Zeichensatzung mit dem "Iftzertifiziert -Zeichen zu kennzeichnen

Diese Bescheinigung ersetzt nicht die Erstellung der EG-Konformitätserklärung durch den Hersteller.

Vertrag-Nr. / Contract No.: 181 6047821

The present certificate attests that the windows mentioned fulfils the requirements of the lft-certification scheme for windows and external pedestrian doorsets (QM 320 : 2013).

Basis of the certificate are the product families of the windows listed that have been compiled by the test laboratory, tests performed by the test laboratory as per EN 14351-1 2006 + A1 2010, factory production control by the manufacturer, a third-party surveillance audits of the production by the surveillance bodies at the sites mentioned and an annual audit-testing of samples which were taken at the factory.

The certificate is valid for a period of 3 years. Award of the certificate is subject to regular third-party surveillance of the manufacturer.

The reproduction of the certificate without any change whatsoever from the original, is permitted. Any changes to the prerequisites applicable to certification shall be immediately communicated in writing to Ift-Q-Zert accompanied by the necessary evidence

The company is authorised to affix the "lft-certified"-mark to the hardware according to the ift rules for use of the "ift-certified"-mark.

This certificate does neither replace the EC-declaration of conformity drawn up by the manufacturer.
